

eBusiness services for chemical customers
of ExxonMobil Product Solutions
Optimizing the flow of business.

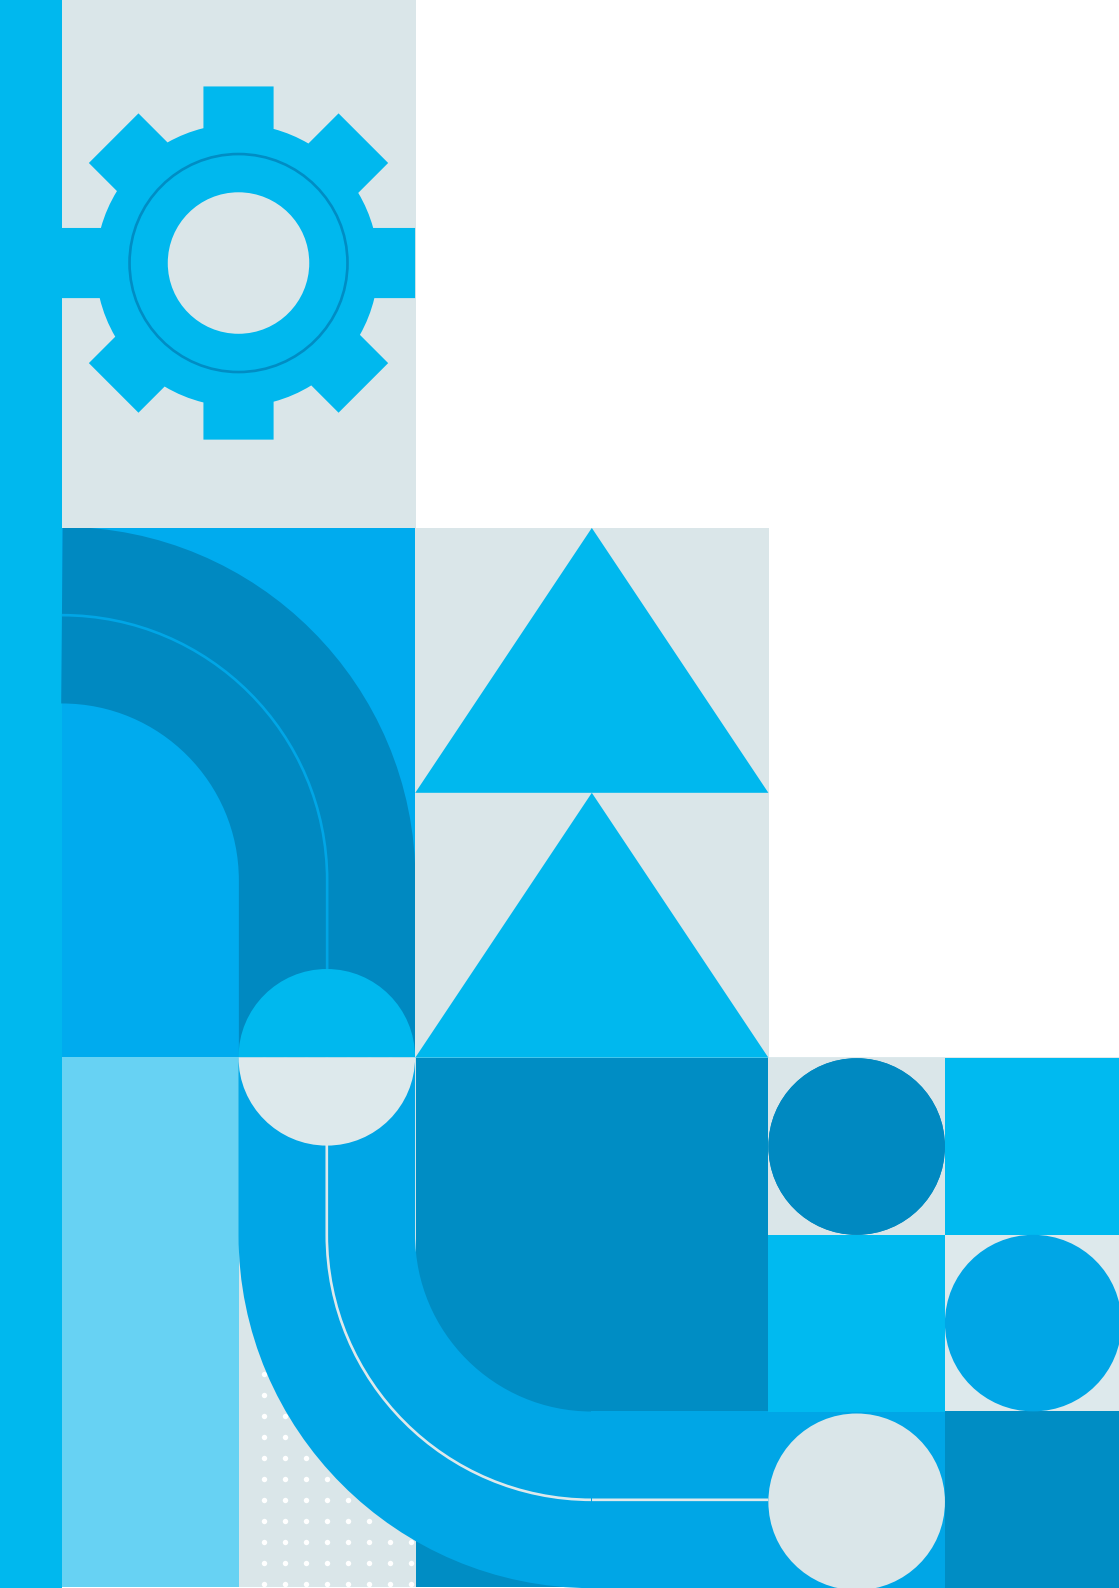

Flow smarter. **Flow better.**

It accelerates. It advances. It simplifies. It expands.

Your business, at its very best, operates with tremendous efficiency and productivity. And to help you keep running at those high levels, we provide several eBusiness services for chemical customers of ExxonMobil Product Solutions.

It is a suite of tools that leverage the most beneficial technologies for automating and streamlining the way you interface with us. These tools are designed with the flexibility to fit seamlessly with your particular preferences and processes. Today, that might mean placing online orders and tracking support requests. But down the road, you will be able to eliminate manual double entry of sales orders, and receive instantaneous transmission of data and reports.

Wherever your business leads you, we have the eBusiness tools to help you optimize. And we will continue to evolve and improve the offerings so that their value to your business never stops growing – or flowing.

A large blue circle containing the text "OneConnect" in white.

OneConnect

OneConnect is a self-service, cloud-based portal that provides an easy-to-use tool for obtaining 24/7 access to a wide range of data, documentation and support

A large light blue circle containing the text "API" in white.

API

Our Application Programming Interfaces (APIs) harness the power of the latest technology to offer all customers real-time integration, automation and data integrity

A large blue circle containing the text "EDI/XML" in white.

EDI/XML

Customers that connect through value-added networks or point-to-point may access limited offerings over Electronic Data Interchange (EDI) or XML

Optimizing
every opportunity.

Our eBusiness services are advanced and emerging tools, yet they are built on a long-standing operating principle: our commitment to remaining an essential, beneficial resource for your business. Key to delivering on that experience is making it easier for you to work with us – when, where and how you choose. We look forward to discussing your particular business needs and to helping you determine which service options provide the best fit for you.

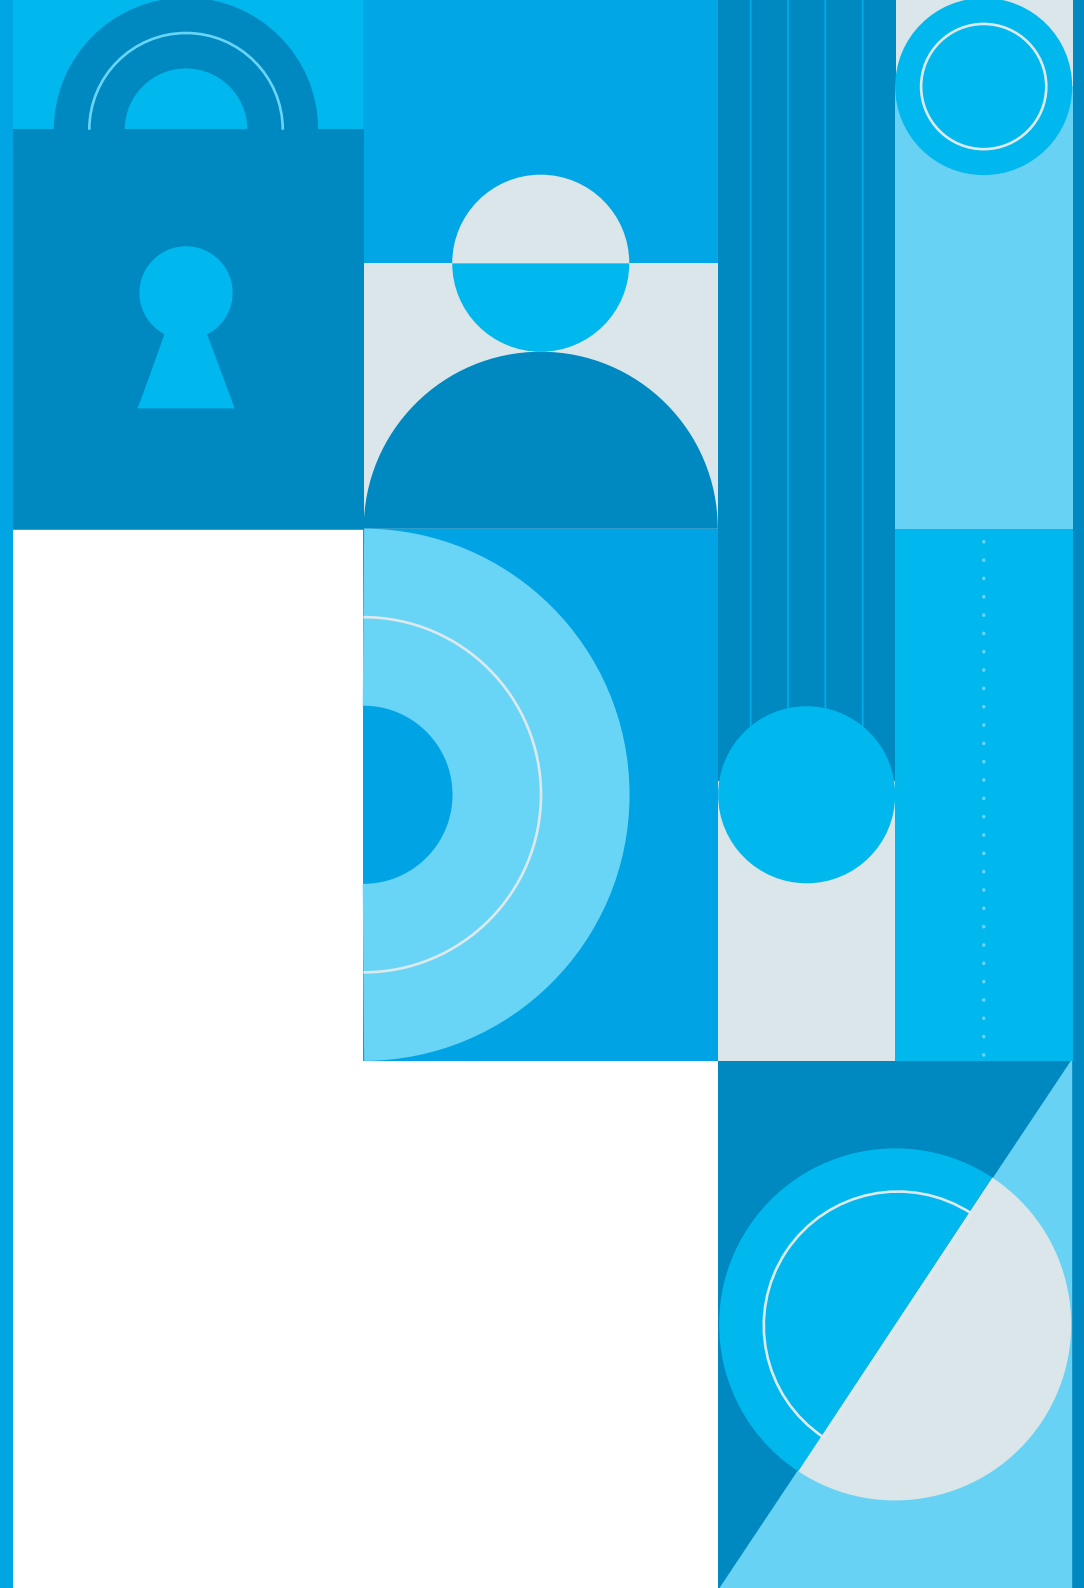

Optimizing your self-service capabilities.

OneConnect is an integrated, cloud-based portal that streamlines how you retrieve documents and data. It is a self-service, easy-to-use tool for managing orders, accessing account information and receiving rapid customer support. OneConnect requires no setup costs, and it can work in concert with our API offering to provide you the greatest degree of flexibility and efficiency in your operations.

OneConnect benefits include

- ✓ 24/7 access anywhere, any time
- ✓ Place, modify and track orders conveniently
- ✓ Retrieve order and product documents and account history
- ✓ Submit support requests such as product samples and issue reporting
- ✓ Utilize robust search capabilities and multi-language, on-screen help
- ✓ Immediate access to portal upgrades

For more information about OneConnect, visit our [website](#).

Optimizing truly seamless integration.

Through our Application Programming Interfaces (APIs), your business can seize the full power and advantages of advanced B2B integration - both today and tomorrow. The real-time, system-to-system integration advantages of APIs enable your business and ExxonMobil to work seamlessly as one team, while gaining access to capabilities and capturing efficiencies not available via EDI.

API benefits include

- ✓ Eliminate the need for double-entry of orders
- ✓ No manual entry minimizes human errors
- ✓ Increase data quality, timeliness and integrity
- ✓ Obtain immediate and automated transmission of data
- ✓ Receive faster, simpler access to new feature capabilities

For more information about APIs, visit our [website](#).

Optimizing your options.

APIs complement OneConnect functionality and expand the total capabilities of customers who leverage the power of each offering.

APIs provide additional benefits such as

- ✓ Machine-to-Machine communication of selected data
- ✓ Eliminate the need for double-entry of orders
- ✓ Event-based notifications to customers' systems

OneConnect remains an established tool for

- ✓ Intuitive order reports and product documents
- ✓ Ad hoc customer requests
- ✓ Account preferences and personalized notifications
- ✓ Access to data during and after API integration

APIs enable you to harness the benefits of seamless integration while continuing to leverage the benefits of OneConnect.

Business Activity	OneConnect Self-Service Online Portal	APIs Advanced System to System Integration
Submit orders	✓	✓
Change orders	✓	✓
Monitor order status	✓	✓
Track shipments	✓	✓
Order related documents <ul style="list-style-type: none"> • Order Confirmation • Certificate of Origin • Certificate of Analysis • Bill of Lading • Advanced Shipment Notification • Invoice • Packing List • Supply Point Notification 	✓	✓
Region specific documents <ul style="list-style-type: none"> • Nota Fiscal (Brazil) • Boleto (Brazil) • E-invoice (Mexico) • Tankcar outage table (US) 	✓	Future capability
Account statement	✓	✓
On-line submission of general inquiries or complaints	✓	
Product related documents, including for sensitive end uses	✓	
Upfront time investment	Low threshold for embarking in first portal usage & onboarding additional users	Some upfront development to leverage integration, scope of work varies by application
Return on time invested	Order entry is a simple, quick yet recurrent activity	Systems integrations yield efficiencies from reduced manual order entry and monitoring

Optimizing how we work together.

Today, our eBusiness services provide a range of options to assist your business operations. And from here, the journey of constant advancement and continual improvement grows.

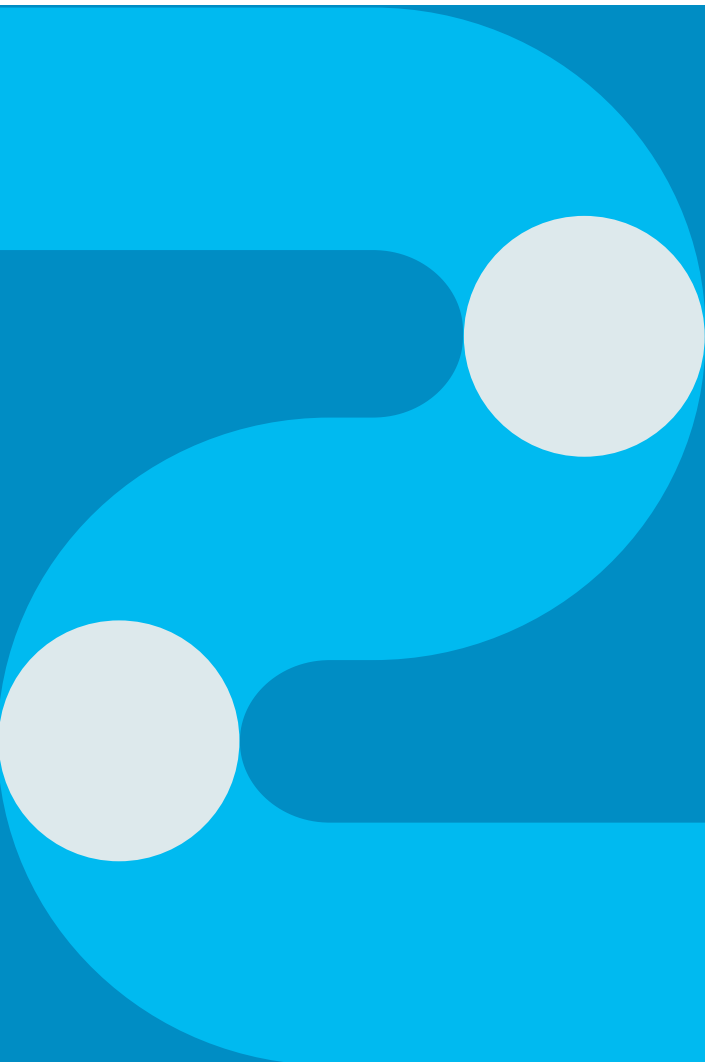

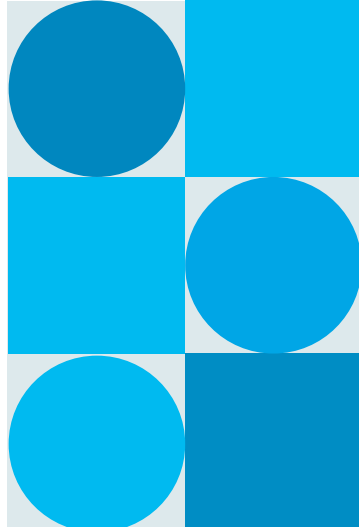

The offerings will expand. The technologies will improve. And the road map will be updated along the way. Yet we always have a clear view of exactly where we are headed: to the latest tools that optimize how simply and effectively we can work together.

We look forward to discussing which solutions will best fit your needs, as well as sharing additional features that could benefit you going forward. Please contact us to discover how eBusiness services can get your business flowing like never before.
