Live webinars
Enhancing flexible primary packaging with Exceed S performance PE resins
Aug 11 | 10:00 am CST (English)

Join us as we provide an introduction to Exceed S in flexible primary packaging applications. This webinar will cover non-laminated coextruded films, PE//PE laminates, hot-filled bag-in-box, and will show why Exceed S PE will enable you to rethink film design.

Innovative solutions
Create tough, hard-to-puncture agricultural silo bags using less material with Exceed S performance PE

Exceed S 9243ML resin excels at optimizing the combination of high toughness, low creep, and high needle puncture required in silo bags. The magnitude of the improvement is such that significant downgauging is possible, which enables a reduction in LDPE content and further boosts film performance.

Innovative solutions
Exceed S performance PE: A simple idea

How to improve durability and make processing easier? Over the years packaging films became complicated. Exceed S is a new platform of performance PE resins that is a technological leap forward in film formulations.
