

Performance Polymers Innovation Week

September 27 - 29, 2022

ExonMobil

We invite you to our online event to see the products, understand the technologies and hear the trends that will help shape the future of the plastics industry. There will be sufficient time for sessions to conclude and allow attendees to log on to the next timeslot.

Why attend?

- Receive information you can't get anywhere else, direct from ExxonMobil and industry experts
- Gain access to live and on-demand presentations and discussions
- Submit questions in advance or join live Q&A during the event

Submit questions in advance of join live que during the event			
Tuesday, Sept. 27	Wednesday, Sept. 28	Thursday, Sept. 29	
8:00 - 9:00 am CST	8:00 - 9:00 am CST	8:00 - 9:00 am CST	
ExxonMobil: Evolving to serve you better	The wait is over: Explore HDPE for film applications	Introduction to choosing the right performance polymers	
Dave Hergenrether: Vice President Polyethylene	Tyler Baran: Regional HDPE lead Nilesh Savargaonkar:	Victor Hugo Guedes: PE Commercial Lead	
ExxonMobil Product Solutions continues to innovate to meet customer needs and our new organizational model reflects the	Principal Customer and Application Development Engineer	Fabio Camacho: PE Customer Developer	
company focus on developing products with sustainability benefits. Our Vice President will explain the investments	New high performance HDPE resins are designed for evolving film formulations and are focused on helping to address	Are you looking for the right combination of attributes for your PE film design and exploring the possible tradeoffs when	

and are focused on helping to address growing sustainability demands in the market. Get a sneak peek at this new HDPE platform that addresses the need for mono material solutions in food packaging and high stiffness in various film packaging applications.

performance products and reflect on how

this strategy can help you advance your

Advancing plastics circularity in packaging and beyond

ExxonMobil is making in chemical

Francois Chambon:

business priorities.

Global Lead, Strategic Marketing

Raymond Mastroleo:

Advanced Recycling Manager

Customers are focused on doing more with less, increasing recycled content incorporation, improving recyclability of products, and reducing a product's carbon footprint all while maintaining product performance. This session will review how to leverage mechanical and advanced recycling as well as explain the growth of Exxtend™ technology for advanced recycling and usage of certified circular polymers in designs.

Real world cases of rethinking film design with Exceed™ S performance polyethylene

9:00 - 10:00 am CST

Tom Miller: Exceed S Marketing Manager

Santiago Laverde: LAMEX Market Development Lead

This session presents a series of real world examples where Exceed™ S PE has enabled converters to look at their designs in a different way. See various examples of solutions created with increased stiffness and toughness, packaging simplified to a mono material structure, and other solutions offering sustainability benefits.

ExxonMobil™ PP7722KN: Leveraging the attributes of a strong impact co-polymer in packaging

9:00 - 10:00 am CST

the ExxonMobil performance polymers

challenge.

making a choice? This session will discuss

portfolio, providing guidance to enable you

to make the right decision for your specific

Jesus Cortes: Market Developer, Polypropylene, Vistamaxx™, Exact™

In this session we will discuss the properties of one of our new ICP, nobreak, polypropylene grades and how it fits within the extrusion sheet industry. A customer will join us to provide their view on how PP extruded sheet is replacing cardboard through benefits in impact performance and durability, moisture resistance, and potential recyclability*; we'll also hear this customer's perspective on sustainability within their value chain.

* Recyclable in communities with programs and facilities in place that collect and recycle polypropylene REGISTER

	Collaborating to provide reliable supply, global support and technical expertise to advance healthcare Abigail Agentis: Market Developer, Polypropylene, Vistamaxx™, Exact™ The COVID-19 pandemic highlighted the need for partnering with suppliers that can reliably provide high quality performance products as the world turned its eyes to the healthcare industry for continuous support. This session will provide an overview of ExxonMobil's global manufacturing footprint and our expanded high-quality product portfolio that can maximize performance and value for the healthcare market.	Colaborando para proveer suministro confiable, soporte global y experiencia técnica para avanzar en el cuidado de la salud Ricardo Reyes: Desarrollador de Mercado,
		Polipropileno, Vistamaxx™, Exact™ La reciente pandemia COVID-19 resaltó la importancia de mantener negocios con colaboradores confiables y que puedan ofrecer productos de alta calidad y desempeño dentro de la industria del cuidado médico para tener soporte continuo. ExxonMobil está comprometida a ser el proveedor de elección para ayudar a alcanzar la demanda creciente. Esta sesión proveerá una visión general de la capacidad operativa global de ExxonMobil y nuestro portafolio de productos de alta calidad que ayuda a maximizar el desempeño y valor de los productos dentro del mercado del cuidado de la salud. REGISTER

Who should attend?

Converters:

Learn about the latest products and trends to help you to provide the optimum solutions for your customers.

OEMs:

Stay current with information on the latest resins and formulations, and the trends impacting your business.

Brand owners:

Gain insights into future innovations.
