In case that you would like to receive product at your site earlier than the standard lead time, please contact our Customer Service to check the possibility of a rush order. Please note that rush order may result in additional charges.

Can I request a sample from ExxonMobil?

If you would like to request product sample, please contact our Sales Representative or alternatively please key in sample request in online platform (OneConnect).

How do I provide feedback to ExxonMobil?

Your feedback is valuable to us in order to improve customer experience. You can provide your feedback through our Customer Service or through online platform.

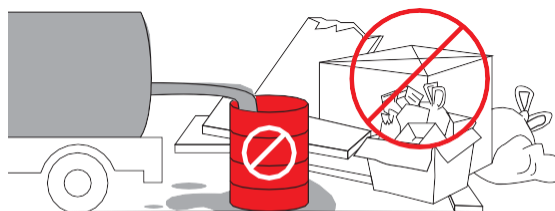

How do I unload a product?

1

- ✓ Compare gross wt reading from the one ex-loading point. Weigh-bridge should be calibrated regularly and ensure it's within valid period

2

- ✓ Maintain good discharging environment. No drumming and discharging outside customer's premises

3

- ✓ No pail(s) with water, heavy metals. No cargo been taken out by driver

4

- ✓ Confirm right cargo come and arrange proper tank to receive

5

- ✓ Check tank valve status; Verify tank capacity and sign name on unloading checklist

6

- ✓ Reconcile seals number, check Elock status, and follow unloading checklist to perform unloading operation

7

PPE including safety harness must be used for both drivers and customers

8

✓ Witness the entire unloading operations and report to ExxonMobil if any abnormal

9

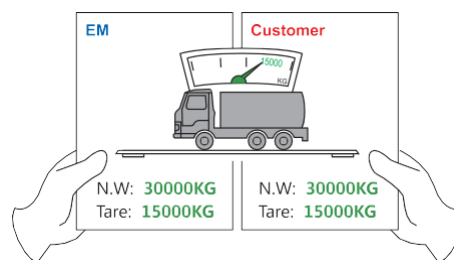

Making or breaking connections, co-operation between driver and operator is very important to avoid incidents

10

✓ Provide the drum/container to collect the remnant. Visual checking through foot valve (for non DG only)

11

✓ Measure the tare weight / Net Weight and report to EM if beyond agreed threshold

12

✓ Pass one copy of weighbridge ticket to driver and keep one. Sign off the unloading checklist with the actual receiving quantity
