Case study

Armando Alvarez uses Exceed S PE to create silo bag films

The new silo bag film formulation replaces its existing octene-based LLDPE solution and includes Exceed S 9272 performance PE to help deliver the mechanical properties, including stiffness-toughness balance, and dart impact, tear and puncture resistance.

Case study

Plastrela mono-material PE pet food SUP for Adimax

Replacing the conventional PET substrate and PE sealant structure with an innovative PE//PE solution can improve the potential recyclability of the SUP, while performance criteria like package integrity and printability for brand promotion opportunities are maintained.
