Case study: Duplex metallized and recyclable* high-barrier MDO-PE//PE laminate

See how ExxonMobil collaborated with the value chain to create a duplex PE-based packaging solution with very high oxygen barrier and moisture barrier properties as well as excellent stiffness and optics that can be an alternative to more difficult to recycle multimaterial packaging solutions.

Upcoming event: Global Pouch Forum

SAVE THE DATE

Join ExxonMobil at the [Global Pouch Forum in Clearwater, FL May 29-31 2024](#). The forum is the longest flexible packaging event and is the place to get the latest information from experts on flexible pouches, films and associated machinery.

Upcoming event: AMI Multilayer Flexible Packaging

Join ExxonMobil at [AMI Multilayer Flexible Packaging in Chicago, IL from June 25-26 2024](#). The event is designed to address innovations in multilayer film to deliver efficient, optimized pack formats in North America and beyond.

*Recyclable in communities with programs and facilities in place to collect and recycle plastic film.
