Press release: ExxonMobil introduces Enable™ 1617 performance polyethylene

Ideal for thin-gauge hand wrap applications, the new resin is designed to help provide high tenacity and consistent extrusion, as well as help enable the incorporation of high loading levels of post-consumer recycled (PCR) content.

Read more

Case study: Creating machine wrap stretch film incorporating up to 30% post-consumer recycled (PCR) content while maintaining performance

ExxonMobil offers Exceed™ 3812CB performance polymer as an excellent PCR blend partner and booster grade, and introduces Vistamaxx™ 6000 performance polymer for higher wrapper consistency, which can be used pure in a functional layer of 10-15% of the overall film structure.

Upcoming event: Polyethylene Roadshow 2024 - Indore

Discover ways to leverage performance polymers to create solutions for a wide range of applications ranging from flexible packaging, LDPE lean solutions, mulch films to drip laterals at our PE Roadshow 2024 co-organized with Axia Plastics at Indore Marriott Hotel on Aug 8. For registration or enquiries, please contact [Shelja Gupta](#) from ExxonMobil or [Pradeep Chaudhary](#) from Axia Plastics.

Upcoming event: Polyethylene Roadshow 2024 - Aurangabad

Discover ways to leverage performance polymers to create solutions for a wide range of applications ranging from flexible packaging, shrink and stretch film solutions to agriculture at our PE Roadshow 2024 co-organized with Ramniklal S. Gosalia & Co (RSG) at Vivanta Aurangabad, Maharashtra on Aug 30. For registration or enquiries, please contact [Upasana Basu](#) from ExxonMobil or [Nidhi Kilachand](#) / [Dr. Manish Desai](#) from RSG.
