Press release | ExxonMobil to expand advanced recycling capacity

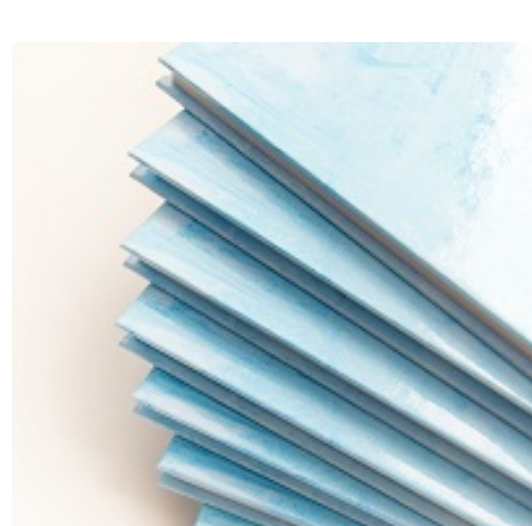

We're playing our part in helping address plastic waste and helping you meet your customers' demand for certified-circular plastics*. It's why we're investing \$200 million to expand our advanced recycling operations at our sites in Baytown and Beaumont, Texas, with additional plans in the works for other sites in North America, Europe, and Asia.

Case study | Exceed™ Stiff+ performance PE-based hygiene overwrap helps Chiga Light to bring greater value to converter

Cardboard boxes are widely used as secondary packaging for hygiene products to reduce risks associated with impact during transportation and storage. Chiga Light collaborated with ExxonMobil to develop a solution that delivered secondary packaging that are light weight and able to deliver the same toughness of cardboard cartons.
