

Unlock expert support with **ExxonMobil Signature Exxpert™ Service**

When challenges arise, the ExxonMobil Signature Exxpert Service is your direct line to answers. This premium support offer connects you with our most seasoned engineers, strategically located around the world and ready to assist you in person at your facility. Our Signature Exxperts™ bring deep technical knowledge and hands-on experience directly to your site, helping you tackle even the most complex issues with confidence.

The right support at the right level

Our Technical team provides strong, responsive assistance across products, processing and application development with a track record of customer success. Signature Exxpert Service builds on that foundation, offering the highest level of technical engagement for customers who require senior expertise. Signature Exxperts are ready to support you—they're innovators, problem-solvers, and leaders in their field. They bring a fundamental knowledge of polymer science along with a deep understanding of product performance attributes direct to our doorstep.

With Signature Exxpert Service, you're never alone in tackling your most difficult challenges.

Areas of expertise

Polymer product technology

Signature Exxperts provide in-depth knowledge of polymer design and the relationship between polymer structure and end-use performance. They know how to meet your goals by leveraging a diverse polymer portfolio:

- Polyethylene
- Polypropylene
- Polymer modifiers
- Elastomers & plastomers

They understand the nuances and individual properties of each unique material and can recommend the best fit for your processing capability and application needs—applying or enhancing attributes such as toughness, stiffness, sealability, adhesion, softness and optics.

Why choose Signature Exxpert Service?

- Advanced technical support from experienced industry professionals
- Personalized, on-site service tailored to your operations
- Faster solutions for your most complex material, processing or application challenges
- Innovation support to help drive a competitive edge

Polymer applications development and formulation

Whether you're refining an existing product or developing something entirely new, Signature Exxperts™ can support you at every stage of the journey. We're there from concept to commercialization. Whether you are an experienced professional or looking for more extensive guidance, we are here to work with you.

Signature Exxpert support can be customized to meet your objectives:

- Identifying market needs and performances gap
- Selecting materials and designing formulations
- Prototyping formulations & processing trials
- Characterizing material & application performance
- Collaborating with value chain partners
- Iterating, validating & commercializing solutions

To help maximize material and production performance, Signature Exxperts apply proven, hands-on approaches grounded in polymer science, processing experience, and application expertise, including:

- Intentional material design and selection
- Formulations for high-performance flexible and rigid applications
- Blends and additive solutions tailored to application demands
- Processing strategies refined through hands-on expertise
- Performance optimization supported by data and testing
- Solutions that align performance goals with sustainability priorities

Polymer processing support

Signature Exxperts can support you to efficiently convert advanced polymer materials into high-quality products through collaborative problem solving and hands-on experience. Support capabilities include:

- Process optimization for extrusion, molding and conversion equipment
- Troubleshooting complex production challenges
- Data-driven insights and testing informed by decades of experience

ExxonMobil
Signature Polymers

Bring your impossible

ExxonMobil Signature Polymers was born from the belief that people fuel progress. From automotive and construction to packaging, agriculture, industrial, and beyond, we leverage the scale and reach of ExxonMobil to deliver the insights and innovations that empower our diverse, global partners to take their businesses to new heights. We continuously work to provide the listen-first, service-driven, game-changing collaboration that unlocks opportunities for our partners and advances their business goals.
