Secure data

The InFocus platform is housed on dedicated Amazon Web Services (AWS) servers. Data in transit is encrypted to ensure safety and privacy. Multiple accounts and customer data are managed through application security. Besides authorized customer users, only ExxonMobil and ExxonMobil vendor support personnel have access to the stored data. Administrative access is controlled by multi-factor authentication, audit logs and periodic access reviews.

About us

ExxonMobil helps refiners and petrochemical manufacturers increase capacity, lower costs, improve margins, reduce emissions and operate safe, reliable and efficient facilities. Along with a commitment to helping to implement best practices and to achieve better results, we provide cutting-edge proprietary catalysts and license advantaged process technologies for refining, gas and chemical needs.
