Exceed™ m 4518.CB Wire & Cable

(Legacy name: Exceed™ 4518CB Wire & Cable)

Metallocene Polyethylene

Product Description

Exceed™ m 4518.CB performance polymer resin is an ethylene 1-hexene copolymer. It is an excellent blend partner in halogen-free flame retardant compounds and cable jacketing to balance inherent mechanical strength with good processability. It has superior mechanical properties that protect cables in various working conditions. Sufficient carbon black or UV stabilizer should be added to meet cable jacketing specifications.
