

Exceed™ HD 6107

(Legacy name: ExxonMobil™ HDPE HD 7165L)

High Density Polyethylene

Product Description

Exceed™ HD 6107 is a high density polyethylene resin that can be processed on traditional blown film or cast film lines as well as for making oriented films such as machine direction oriented polyethylene (MDO-PE). Films made from HD 6107 provide excellent stiffness, thermal stability and processability for both oriented and non-oriented film applications.
